Category index of volume 66

A General Economics and Teaching

A. Grafen, A biological approach to economics through fertility (A12)241

C Mathematical and Quantitative Methods

C. Gao and K. Lahiri, MCMC algorithms for two recent Bayesian limited information estimators (C11)121
Y. Honda, Some tests on the effects of inflation targeting in New Zealand, Canada, and the UK (C12) 1
S. Karlsson and M. Löthgren, On the power and interpretation of panel unit root tests (C12)249
C.M. Urzúa, A simple and efficient test for Zipf's law (C12)257
G. Hondroyiannis, P.A.V.B. Swamy and G.S. Tavlas, Is the Japanese economy in a liquidity trap? (C20) 17
L. Sarno, Real exchange rate behavior in the Middle East: a re-examination (C22)127
J. Strauss, Is there a permanent component in US real GDP (C23)137
Y. Wu, Measuring the performance of foreign direct investment: a case study of China (C24)143
J.F. Kiviet and G.D.A. Phillips, The bias of the 2SLS variance estimator (C30) 7
U. Triacca, On the Hsiao definition of non-causality (C32)261
P. Egger, A note on the proper econometric specification of the gravity equation (C33) 25
S.-H. Yoo and C.-Y. Yang, Dealing with bottled water expenditures data with zero observations: a semiparametric specification (C34)151
R.C. Feenstra and M.B. Reinsdorf, An exact price index for the almost ideal demand system (C43)159
J.J. Heckman and E.J. Vytlacil, The relationship between treatment parameters within a latent variable framework (C50) 33
M.R. Caputo, Lagrangian transposition identities and reciprocal pairs of constrained optimization problems (C60)265
R. Fahr and B. Irlenbusch, Fairness as a constraint on trust in reciprocity: earned property rights in a reciprocal exchange experiment (C70)275
C. Kowalczyk and T. Sjöström, Trade as transfers, GATT and the core (C71)163
D. Spector, Pure communication between agents with close preferences (C72)171
G. Hollard, On the existence of a pure strategy Nash equilibrium in group formation games (C72)283
M. Voorneveld, Best-response potential games (C72)289
S. Castro and A. Brandão, Existence of a Markov perfect equilibrium in a third market model (C73)297

D Microeconomics

G. Choi, I. Kim and A. Snow, Comparative statics predictions for the cross-effects of central dominance changes in risk with quasilinear payoffs (D8) 41
J. Bouckaert, Monopolistic competition with a mail order business (D11)303
C. Herrero and A. Villar, An alternative characterization of the equal-distance rule for allocation problems with single-peaked preferences (D63)311
J. Milyo, A problem with Euclidean preferences in spatial models of politics (D70)179
D.E. Campbell and J.S. Kelly, Weak independence and veto power (D71)183
W.V. Gehrlein and D. Lepelley, The probability that all weighted scoring rules elect the same winner (D72)191
R. Casadesus-Masanell, P. Klibanoff and E. Ozdenoren, Maxmin expected utility through statewise combinations (D81) 49

Elsevier Science S.A.
PII: S0165-1765(00)00210-X

K. Keasey and P. Moon, Sunk cost effects: a test of the importance of context (D81) 55
J. Vercammen, Irreversible investment under uncertainty and the threat of bankruptcy (D81)319
J. Svensson, Is the bad news principle for real? (D92)327

E Macroeconomics and Monetary Economics

R.A. Buckle and J.A. Carlson, Menu costs, firm size and price rigidity (E3) 59
A. Scott, Optimal consumption when capital markets are imperfect (E21) 65
E.C. Chang and J.W. Cheng, Further evidence on the variability of inflation and relative price variability (E30) 71
F.A. Al-Marhubi, Corruption and inflation (E31)199
M. Bahmani-Oskooee and M.T. Bohl, German monetary unification and the stability of the German M3 money demand function (E41)203
P. Kugler, The expectations hypothesis of the term structure of interest rates, open interest rate parity and central bank policy reaction (E43)209
B.L. Boulier and H.O. Stekler, The term spread as a monthly cyclical indicator: an evaluation (E47) 79

F International Economics

H.L. Battermann, M. Braulke, U. Broll and J. Schimmelpfennig, The preferred hedge instrument (F30) 85
J.-L. Wu, Mean reversion of the current account: evidence from the panel data unit-root test (F32)215
E. van Wincoop, A method for solving multi-region models (F41)333

G Financial Economics

V.K. Rao, Preference-free optimal hedging using futures (G13)223

H Public Economics

M. Kunce, A Nash tax game extending the generality of the Henry George Theorem (H73)229

J Labor and Demographic Economics

M.A. Carree, L. Klomp and A.R. Thurik, Productivity convergence in OECD manufacturing industries (J24)337
Y. Sato, Search theory and the wage curve (J31) 93
M. Jellal and Y. Zenou, A dynamic efficiency wage model with learning by doing (J41) 99
P. Portugal and J.T. Addison, Short- and long-term unemployment (J64)107
M. Rosholm, Observed and unobserved heterogeneity in the duration dependency parameter (J64)347

L Industrial Organization

J.J. Kline, Heterogeneous or homogeneous quantity competition (L13)353
K. Saggi and N. Vettas, Leasing versus selling and firm efficiency in oligopoly (L13)361

M Business Administration and Business Economics; Marketing; Accounting

R. Cressy, Credit rationing or entrepreneurial risk aversion? An alternative explanation for the Evans and Jovanovic finding (M2) 235

O Economic Development, Technological Change, and Growth

G.D. Myles, On the optimal marginal rate of income tax (O22)113
